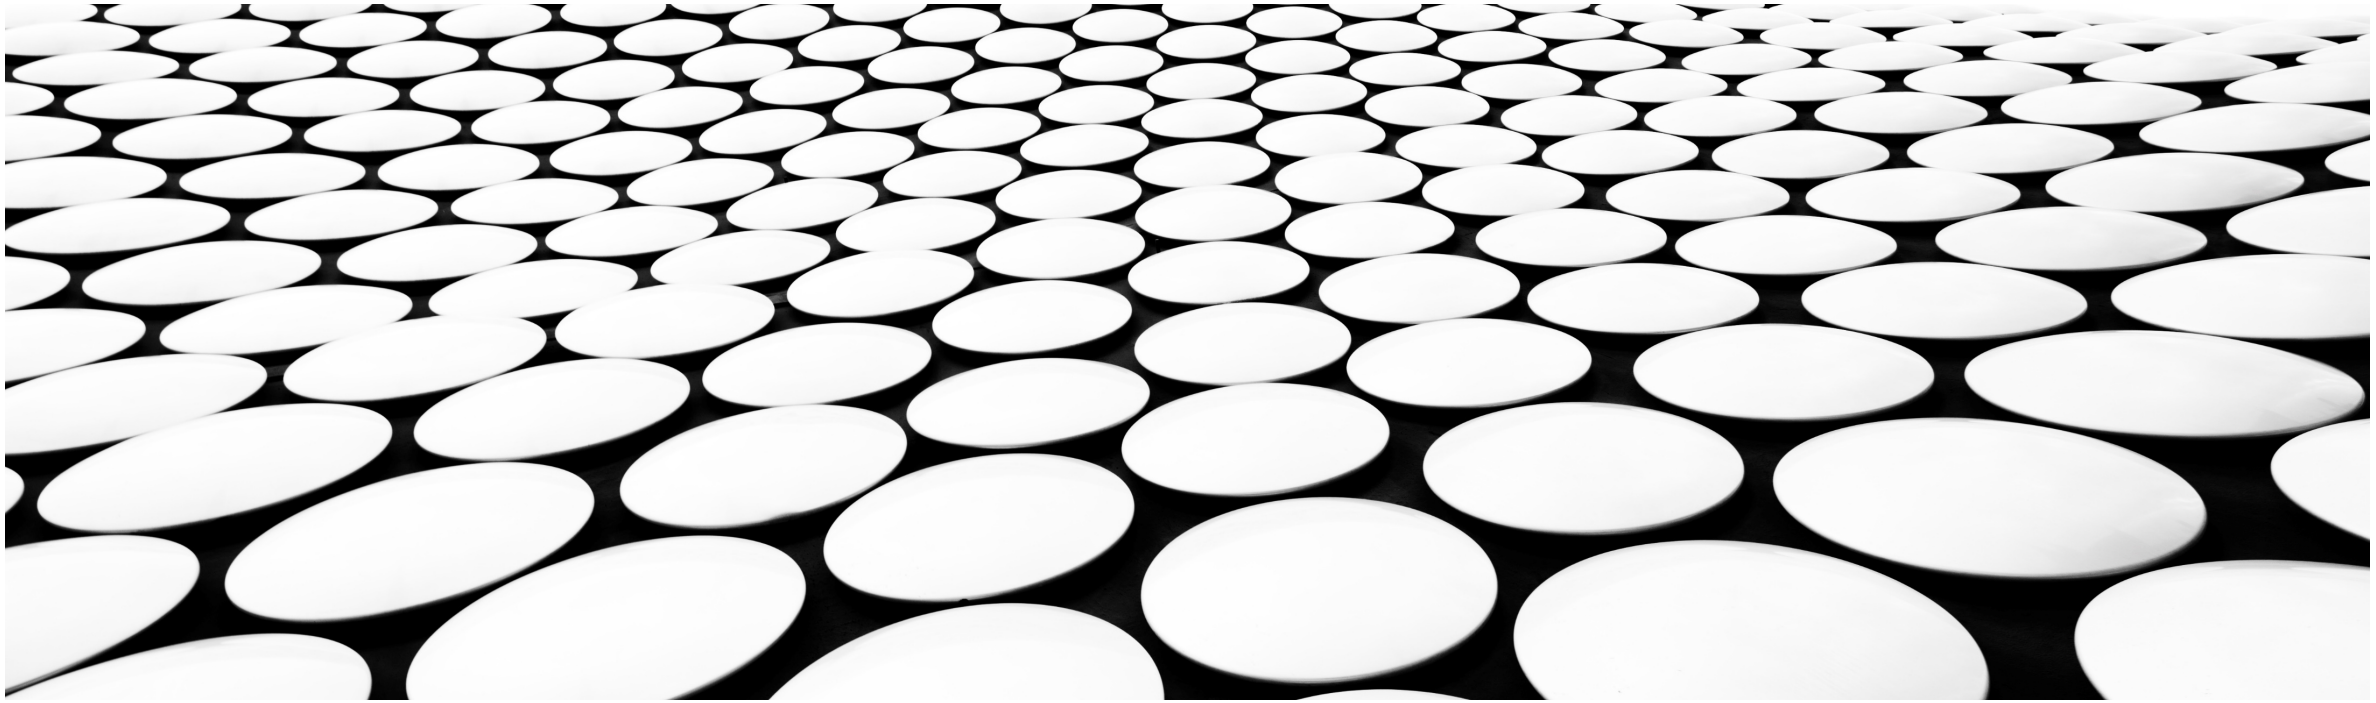
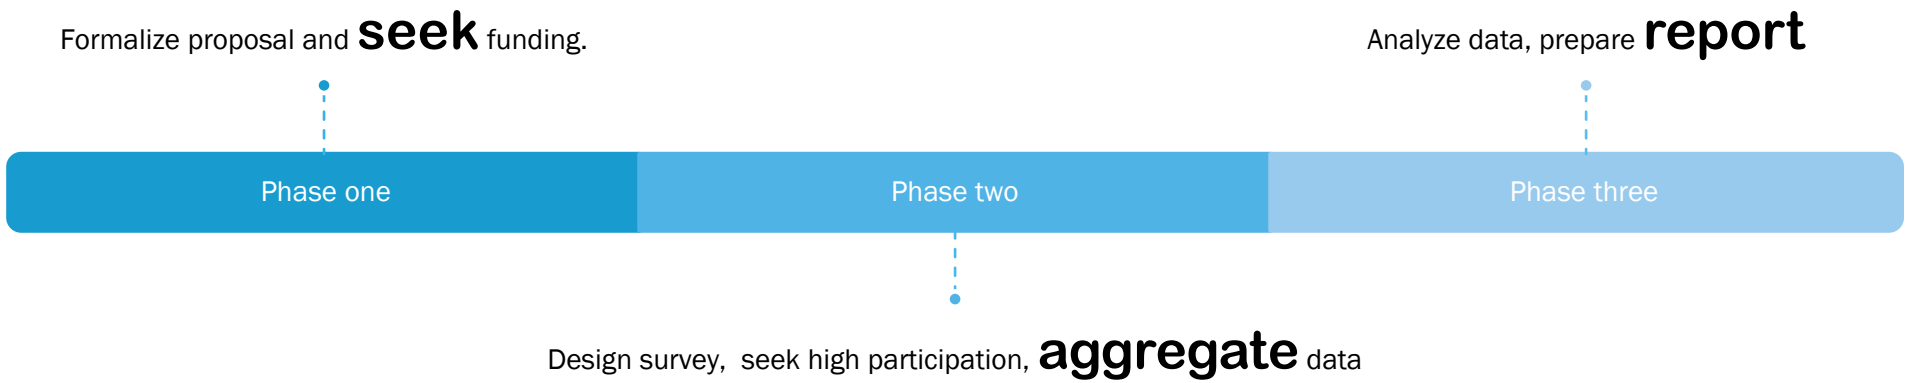
RESEARCH PROPOSAL INDIVIDUALIZED FUNDING

PATHWAYS WEDNESDAY JULY 28TH, 2021

PRESENTED BY ELAINE WILLIS



OBJECTIVE: TO SUPPORT CSIL EMPLOYERS RE: SATISFACTION, NEEDS, COMMUNICATION AND OVERSIGHT OF THE CSIL PROGRAM



RESEARCH PROPOSAL

- **Research Proposal Individualized Funding**
- To survey CSIL employers on satisfaction, needs, communication and oversight of the CSIL program
- We need a catchy title that defines the “problem” we are trying to solve
- Nuts and bolts…. W5 plus How
- Who – provincial government, health authorities, contract staff, case managers and CSIL employers

RESEARCH PROPOSAL

- What – a comprehensive survey with high participation from CSIL employers including aggregation and analysis of the gathered data
- When – begin ASAP and complete by ?
- Where –Province of BC
- Why – to fill gaps in knowledge and current practice; to compare BC to other jurisdictions, to provide a unified, research-backed voice to the needs, both met and unmet, in this population
- How – create fundable proposal followed by comprehensive survey of CSIL employers (and other proponents) followed by strong data analysis

RESEARCH PROPOSAL

- Review any relevant existing research worldwide
- Design an instrument that funnels relevant data into reportable, easily understood information highlighting what is working well, what needs improvement and what systemic changes are required
- Create and refine research questions based on categories created using input from CSIL employers
- Connect with and seek support from CSIL employers to participate in research at design phase and in data collection phase
- Define budget based on needs which will include creating survey instrument, coding and transcribing interviews, data analysis and edit/proofreading

RESEARCH PROPOSAL

Perhaps we can create a partnership between the Association of CSIL Employers and IFRC to move forward.

Please send feedback and ideas to elaine@elainewillis.ca
